

Project: Addition of doloma waste from industrial demolished equipment in the production of doloma fired bricks (RECUDOL)

According with its policy of circularity and looking for the best service for its fired doloma customers, INTOCAST IBERICA will adapt its dosing and mixing ways of doloma pastes, to guarantee an efficient addition of recovered bricks from the demolition of stainless steel AOD converters, minimizing the risk of degradation due to hydration during the milling and mixing process, previously to pressing step.
